**LITTLE CREEK YOGA  
MONDAY, JULY 24<sup>TH</sup>  
7:00 PM**

**Be transported as you submerge yourself in soothing 3D soundscapes designed for deep relaxation and meditation. Each texture is sculpted within a circle of eight independent speakers creating sonic environments and vibrations unlike anything you've ever felt before.**

This music is produced by musician/programmer, **Tom Montagliano**, who has spent the past 2 years developing his own software in order to control the movement of sound through his mobile 8 speaker setup. He has traveled all over the country to share his music and create meaningful, unique and intimate experiences. He has performed at a variety of venues such as rooftops, opera houses, churches, and festivals across the country including Burning Man, Gratitude Migration, Catharsis on the Washington Mall, and Elements Music & Arts Festival.
